

shiprussia

Much to our regret, in light of the cancellation of all passenger services operating into and out of the Russian Federation, we find it necessary to introduce the following rates for our Russia express service until further notice.

Our current transit times remain largely unaffected by events in Russia, but please do note our additional published service information relating to the current lockdown measures currently in place in Russia and the relevant temporary changes to our receiving times and signature capture policies. Full details of this can be found on our web site.

COVID-19 Emergency Russia Courier Rates
